Marine Surveyors & Adjusters

We look for the facts that
unveil the truth.

Investigation & Surveys

OUR SERVICES

We offer all kinds of investigation and physical survey services throughout the Mexican territory, with our headquarters located in Mexico City.

From pure documental investigation to physical surveys on field, consultations with experts, document translation and incident prevention advisory. We deliver all the evidenciary support for every claim file.

We provide continuous updates to our clients and procure an open communication with the assureds and consignees to ensure an efficient workflow.

SURVEYS

With our strategically located team of surveyors, we offer physical survey services throughout the Mexican territory with an on-site response time within 24 to 48 hours.

Providing in-situ testings and sample collection and testing with experts on every field.

CONSULTANCY

Decades of experience are focused on delivering pertinent advise whenever it is needed to better protect our underwriter's interests and providing the assureds with a better understanding of their roll and possibilities for prevention of future incidents.

”

Condemnation without investigation is the height of ignorance.

-Albert Einstein

“

ADDITIONAL SERVICES

Besides delivering evidence and documentation for all claim handling agencies we provide:

- Surveys during loading, discharging, lashing and trimming.
- Document translation.
- Sampling and laboratory analysis with expert's opinions.
- Vessel or facilities security surveys.
